### REMARKS

This paper requests the entry of an amendment to the specification of the application. The new paragraph adds a priority claim to the application, to claim benefit of an earlier-filed U.S. patent application.

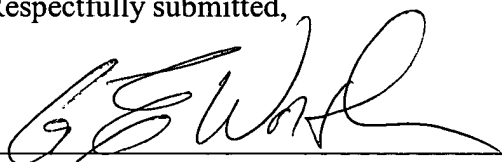

Claims 1-55 were initially presented in the parent application. Claims 2, 6-9, and 14-52 are hereby cancelled. Claims 1 and 54 are hereby amended, and new claims 56-59 are added. After entry of this Preliminary Amendment, claims 1, 3-5, 10-13, and 53-59 will be pending in the application and are presented for consideration.

Applicant submits that these claim amendments introduce no new matter to the application. Support for the amended claims can be found on pages 6, 7, and 14 of the specification.

Applicant encloses a check to cover the fee for this new utility patent application. Applicant believes no additional fees are necessitated by this Preliminary Amendment. If any additional fees are due, the Commissioner is hereby authorized to charge them to Deposit Account No. 20-0531.

Respectfully submitted,
